ARGOS X marks a new era: a combination of innovation, precision and compact design. The result of 20 years of research and 10 years of field experience, it redefines the standards of speed, reliability and simplicity in wheel alignment.

ARGOS X

A NEW ERA

5"

Measure toe and camber in less than 5 seconds

Contact less; nothing attaches to wheels

For all passenger and light duty vehicles

No moving parts, fits around your working space without interference

Automatic calibration; no need for periodic checks

STEP-BY-STEP INNOVATION

1
GUIDED
Positioning

Upon vehicle arrival, video starts to guide its positioning on the turnplates

2
CONTACT LESS
measurement

No clamps, targets or sensors to be attached

3
IMMEDIATE results

Toe and Camber measured in less than 5 seconds

Rim run-out not mandatory

5"

4
Turnplates with
AUTOMATIC LOCKING/
UNLOCKING (option)

When steering, turnplates automatically unlock and Caster measurement begins.

No brake pedal required

5
FAST PRESELECTION
of specs

Make and model list is automatically shortened based on vehicle size

6
REPORT and sharing

A complete report visualizes vehicle issues resulting from out-of-specs measurements to support the sale of the adjustment service

SOFTWARE PACKAGES

GOLD	
	Database license
	Automatic updates of vehicle specifications in real time
	Automatic software updates
	Sends results in real time via WhatsApp, Email or SMS
	APP for full control from tablet or smartphone
	Remote Assistance
	DMS connection via Workshop.net
	Automatic recognition of vehicle specifications from recurrent vehicle license plate reading

PLATINUM	
	IN ADDITION TO THE GOLD PACKAGE: Automatic recognition of specifications from new vehicle license plate reading. Useful to cancel operator time and doubts looking through vehicle model list (*available as option only for some countries).

RESULTS ALWAYS AT HAND

Offer your customers a modern experience by sharing alignment reports directly to their smartphone or tablet.

Use the clarity and objectivity of reports to promote the alignment adjustment service!

CEMB APP

App for full control from tablet or smartphone to ease checking measurements while adjusting under the vehicle and selecting specs from inside the vehicle

CLOUD SERVICES

- Real-time access to:
- Automatic software releases so that you are always updated with the newest features
 - Database updates to always have newest vehicles specs
- Enabled to receive:
- Remote support, for effective and low-cost troubleshooting

WORKSHOP.NET

ENHANCED PRODUCTIVITY

ARGOSX integrates 'Workshop-Net' framework to automate work orders and results data exchange with shop data management system (DMS) for enhancing productivity.

ARGOSX + WORKSHOP-NET: improve planning and increases profitability.
