

All-in-One Mobile Tyre Service Unit

Sice is pleased to present **FITLINE VANBOX**, the new compact solution designed to transform vans or equipped vehicles into fully-fledged **mobile tyre service units**.

One single integrated module featuring Leverless tyre changer, Tilting wheel balancer, compressor, air tank and 48 V DC power supply, enabling you to perform the main operations directly at the customer's premises.

Designed for fleets, satellite workshops, for seasonal servicing, at automotive events as well as for professional on-the-road assistance, FITLINE VANBOX brings workshop quality and professional service wherever they are needed

One fully equipped mobile workstation

All the essential tyre service equipment is integrated into a single, compact and well-organised system, designed to make the best use of the available space inside the vehicle.

Workshop-standard quality. Available everywhere.

Main features

► Full integration:

- Leverless tyre changer,
 - Tilting wheel balancer, compressor,
 - Air tank
 - Power supply voltage
- are integrated into a single compact system.

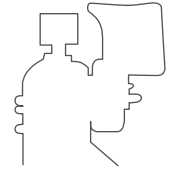

► Leverless tyre changer: designed for mobile service.

It is a combination of:

- Compact size,
- User-friendliness
- Robustness.

It features central wheel clamping, dynamic bead breaking and pneumatic bead pressing tool arm with presser roller as standard.

0-51900002/34 FITLINE VANBOX

8-51400000 VANBOX PERSONALIZATION KIT

FITLINE VANBOX is not just a new piece of equipment: it is a more effective way to make the tyre service directly available where it is needed.

► Technical data

Maximum length	1550 mm	Power supply	48V
Maximum width	850 mm	Applications	Cars, SUVs, LCVs
Maximum height	1800 mm	Installation	Vans / equipped vehicle
System weight	536 kg	Compressed air	Integrated compressor + tank

► Leverless tyre changer

Rim diameter	12" - 23"
Rim width	3" - 12"
Maximum wheel diameter	850 mm
Operating pressure	6-8 bar
Motor power	0.8 Kw
Rotational speed of the main shaft	8 rpm
Power supply	48V DC
Weight	260 kg

► Tilting wheel balancer

Rim diameter	1" - 28"
Rim width	1.5" - 20"
Maximum wheel diameter	1100 mm
Repeated mounting test	≤ 5 g
Rotational speed of the main shaft	100 rpm
Maximum wheel weight	70 kg
Power supply	48V DC
Weight	60 kg
